Increase driver productivity

Monitor scheduled and unscheduled stops throughout the day.

Increase vehicle and driver performance

Monitor hard brakes, speeding, idle time, and wear and tear on vehicles.

Verify routes

Determine out-of-route miles and most efficient routes.

GPS tracking and engine diagnostics

High resolution GPS data combined with engine data provide robust web reporting.

Verify payroll

View the exact amount of time that your drivers were on the road.

Automate IFTA, state mileage and PTO filings

Eliminate paperwork and driver intervention.

“IT’S LIKE SITTING IN THE PASSENGER SEAT OF ALL YOUR VEHICLES.”
